

KRL/Bantry Components, Inc.

160 Bouchard Street

Manchester, NH 03103

QMF32

Certified for all LEAD FREE resistors only

Date: September 21, 2016

“RoHS2 Environmental Compliance Declaration”

This document declares that to the best of our knowledge all lead-free components sold by KRL/Bantry Components, are in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronics equipment (RoHS Directives, Article 4). All components also comply with the new European Union RoHS Directive 2011/65/EU and the PFOA-Directive 2006/122/EG. The stated components are certified by KRL/Bantry Components, Inc. as compliant with the definitions given in the directives. These materials listed below are NOT present in the components making the components 10/10 ROHS compliant.

- | | |
|--------------------------------------|------------------------------------|
| Cadmium | Hexavalent Chromium |
| Lead | Bis(2-ethylhexyl) Phthalate (DEHP) |
| Polybrominated Biphenyl (PBB) | Benzyl Butyl Phthalate (BBP) |
| Polybrominated Diphenyl Ether (PBDE) | Diisobutyl Phthalate (DIBP) |
| Mercury | Diisobutyl Phthalate (DIBP) |
